General Comment:

On 05/13/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at Argali Exploration Company's N.E. Craig State-68N90W /27SENE Location #312974 in Moffat County, Colorado.

The following compliance issues were observed during this inspection:

- Leaking pipe at wellhead
- Noxious weeds: Canada thistle

Refer to the "Location," "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Bradenhead	# 1			
Comment:	Previous inspection #702000244 observed bradenhead access has been installed but there is a leak at the surface of both gas and water. Inspector required Operator to immediately stop leak and repair wellbore by 5/16/2022. At the time of this inspection, the previously observed leak of gas and water was still occurring at the wellhead. This inspection was conducted before the corrective action date. Previous corrective action and date remain applicable.

1003 f. Weeds Noxious weeds? F

Comment It was observed in this inspection that interim areas of the Location are dominated by commonly seeded non-native perennial grasses including crested wheatgrass, smooth brome and thinopyrum sp. The native forb curlycup gumweed was common as was bulbous bluegrass, a CO List C Noxious Weed. Canada thistle, a CO List B Noxious weed was also present, but uncommon.

Corrective Action Comply with Rule 1003.f and conduct weed management on the Location to prevent further establishment and spread of CO State List B Noxious Weeds; ongoing weed management is required until site passes final reclamation.
