General Comment:

On 05/25/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at Chevron USA Inc's Wilson Creek Morrison Unit-63N94W /35SESW Location #398843 in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious Weeds: houndstongue

Refer to the "Location," "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

The Location appears to have been seeded with bluebunch wheatgrass, a native perennial grass, which is well established in the northern portion of the Location. Some areas of the Location to the south are dominated by undesirable and noxious species including field pennycress, cheatgrass and houndstongue. Given the vegetation community on the south of the Location, the site has likely not yet achieved total perennial, non-invasive uniform plant cover of at least eighty percent of reference levels. Operator may want to consider intervention in this area.

Refer to the "Location" section of the report for corrective action regarding noxious weeds.
