**General Comment:****COGCC Inspection Report Summary**

On Wednesday 6/8/2022 at approximately 1100, I, Inspector Scott Ramsey, conducted a routine inspection at Chevron Wilson creek 66, at Location # 315723 in Rio Blanco county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management.

During this inspection the following possible compliance issues were observed:

1. Stored equipment (Tubing, trailers, production equipment, etc.)
2. No well head signage.
3. Tank containment is failing.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
