General Comment:

COGCC Inspection Report Summary

On Tuesday 8/2/2022 at approximately 1100, I, Inspector Scott Ramsey, conducted a follow up inspection at Caerus B27, at Location # 335376 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

C/A (Debris around pig stations) from previous inspection document # 700703688 has not been completed. C/A date remains the same 12/31/2021

During this inspection the following compliance issues were observed:

1. Valves on tanks missing caps/plugs. Talked with pumper and lead said they would get them put on ASAP.
2. Debris at pig stations. C/A date (12/31/2021)
3. Erosion around pig stations (possibly from a catch containment). Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
