Operator Comments:

This equipment will be set on the C34-14 pad to allow the operation of booster water pump in support of transferring this water to upcoming frac in the area. The frac tanks and heating trailer will support winter operations. The plan is to set this equipment in the 3rd quarter 2022, and it will remain on location through 1st quarter 2023.

The booster pump will remain on location 4th quarter 2023. The second set up we won't need the frac tanks as we will have the Recycle Tank on-line by then.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
