Inspection Photos

Location Name: SPETTER-68N90W/8SWNW

Location ID: 312987

Photo 6. Photo shows trash (metal cable) present in the fill slope.

Photo 7. Photo shows trash (metal pipe) present in the fill slope.

Inspection Photos
Location Name: SPETTER-68N90W/8SWNW
Location ID: 312987

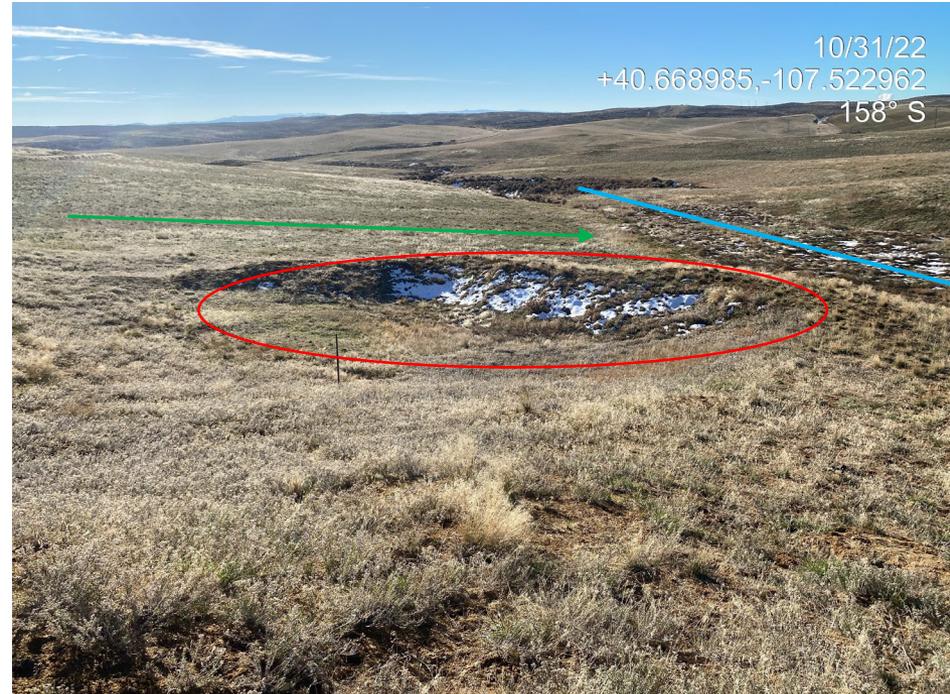

Photo 8. Photos show two pit overflow areas at the southwest of the Location. Pits have not been properly reclaimed; recontouring is required. Note natural contour of reference area; hillside gradually slopes down toward intermittent stream. Pits must be reclaimed per 1003 Rules.

Inspection Photos

Location Name: SPETTER-68N90W/8SWNW

Location ID: 312987

Photo 9. Photo shows an overview of the eroding cut slope at the north of the Location. Note, the base of the cut slope is vegetated and stable. Erosion is occurring in largely unvegetated areas.

Photo 10. Photo shows rill erosion on the cut slope at the north of the Location. Erosion is occurring in areas which are largely unvegetated.
