CORRECTIVE ACTIONS:

1 CA# 165844

Corrective Action:

Date: 11/16/2022

Operator shall comply with 900 Series Rules. Determine vertical and horizontal extent of spill to establish points of compliance and conduct soil analysis with discrete sampling and photo documentation to provide in future Supplemental Form 27s and FIRR. Collaborate with the landowner to determine future crop plans in order to facilitate proper remediation and reclamation of subsoil and topsoil on location.

Operator shall comply with Rule 905.a.5. Collect and submit samples for waste characterization for the unidentified piles, referenced in attached inspection photos, prior to offsite disposal. Include analytical results and disposal manifests in FIRR and future Supplemental Form 27s.

Operator shall provide Environmental Group with a Form 42 (check "other" box and provide description of activity) to notify Environmental Protection Specialist when soil samples are being conducted for both the vertical and horizontal extent of spill and for waste characterization of the piles.

Response: CA COMPLETED

Date of Completion: 11/15/2022

Operator Comment: Form 27 submitted doc 403227439. Sampling activities are scheduled for early December weather permitting. Sampling activity will delineate the extent of inorganic soil impacts. Unidentified pile is landowner manure pile. Landowner has instructed Magpie employees to not touch, spread or modify the material on site. Historically, landowner has provided organic material as a means of backfill and soil amendments. Magpie will notify via form 42 and communicate directly with COGCC staff for future sampling activity.

2 CA# 165845

Corrective Action: Comply with Rule 1004. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production. Provide documentation within the FIR Resolution form of when the corrective action work will be completed and provide date and documentation of coordination with the surface owner.

Date: 07/22/2019

Operator shall submit a Form 4 with a Reclamation Plan for the entire location and must include language to route the form to the area Reclamation Specialist. Reclamation Plan Guidance Template is included in the 915.B guidance document.

Corrective action date is being back dated to when final reclamation activities should have been completed.

Response: CA COMPLETED

Date of Completion: 11/15/2022

Operator Comment: Landowner has instructed Magpie personnel to halt all activity including spreading of organic material or contour/reclamation of access road until further notice. Estimates of access to property are after the Thanksgiving holiday in order for the landowner to work their land as they wish.

Form 4 under 915b will follow inorganic delineation by sampling in December of 2022 as per form 27 doc 403227439.

Communication with landowner will continue to ensure agricultural activity is not obstructed and impacted areas will be returned to useful crop.
