General Comment:**COGCC Inspection Report Summary**

On Thursday 11/17/2022 at approximately 1200, I, Inspector Scott Ramsey, conducted a routine inspection at Argali Exploration N.E. Craig State-68N90W 27SENE, at Location # 312974 in Moffat county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW sensitive Wildlife Habitat, Elk winter concentration, NSO habitat, Wildlife Management and Federal land.

During this inspection the following compliance issues were observed:

1. Random debris
2. Tank is lacking Information (capacity/contents) Label is illegible
3. Lack of battery signage
4. Previous inspections Document # 689806227 and 702000244 stated that there are holes in tank. Holes are still in tank therefore C/A date remains the same 9/16/2021.
5. Valves on tanks are missing plugs/caps
6. Unmarked dead man

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
