RE: Abandoned Wells
Peterson 2-29
SWSW 29-3S-59W
Adams County, Colorado
API# 05-001-7361

GENTLEMEN:

A wellsite inspection on January 9, 1991 revealed that plugging work on the above captioned well is incomplete.

The drill pits must be backfilled and the location leveled to landowner specification. The prompt plugging work by Nat Goodwin is appreciated. Hopefully, the incident of leaving wells improperly plugged can be controlled by closer supervision of contractors.

Colorado Oil and Gas Conservation Commission
Rule 319 requires abandoned sites to be cleared of equipment and restored within a reasonable time not to exceed six months from the plugging date. The well was plugged January 7, 1991. Please notify this office in writing of your intentions for compliance within 30 days of the above date.

Sincerely,

Eddie B. Binkley
Petroleum Engineer
