Lilah,

Thanks for your email and spreadsheet and for adding back in the TRSs.

I approve of those BMPs for work in HPHs.

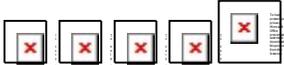

LMK what you find out about that BAEA nest? It's showing up under the 2023 layers, but not under the 2022 layers.

Good morning Lilah,

Yes, could you please add back in TRS, since that's how I track various requests on my end? I don't need lat/longs.

Regards,

Brandon B. Marettte, CWB[®]

Hi Brandon,

I've attached a spreadsheet of Civitas' upcoming workover operations in HPHs, along with proposed BMPs for reach. Please review and let me know if you have questions. (Note: I removed the TRS column for efficiency on my end, but please just let me know if you need me to add it back in.)

Thank you!
