**General Comment:**[COGCC Inspection Report Summary](#)

On Monday, 04/03/2023, Inspector Kirby Burchett, conducted a follow up field inspection at Gordon Engineering Inc. on the Federal #9-2 well, Location #315302, in Rio Blanco County, Colorado.

This location is within or in close proximity to a Parks and Wildlife (CPW) District Wildlife Management Area with Black Bear/High Priority/NSO/Density Habitats.

Any Corrective Actions from previous Inspections are still applicable.

Corrective Action from Inspection #702500899 on 2/21/2023 to provide Stormwater BMPs with a Corrective Action date of 3/27/2023 has not been addressed.

While there, I observed normal production operations. During this inspection the following compliance issues were observed:

1. Gas meter has not been calibrated within the last year.
  2. Stormwater BMPs have not been implemented.
- Refer to Inspection Photos for observed compliance issue.

A follow up on this site inspection will be conducted to ensure all compliance issues have been corrected to comply with COGCC rules.

Comment: Location lacks stabilization. Insufficient tracking BMP at entrance to location. Oil and gas operators shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control Stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation. Oil and gas operators shall implement and maintain vehicle tracking Best Management Practices (BMPs) to control potential sediment discharges from operational roads, well pads, and other unpaved surfaces.

Corrective Action: Provide proper BMPs to prevent sediment migration from location and lease road.
