Re: Request for Form 4 Information, Flank Field

Attention: Mr. W. R. Smith

Gentlemen:

The following is a list of wells within Colorado Interstate Gas Company's (CIG) Flank Gas Storage Field which are not operated by CIG. These wells are operated by Horizon Oil and Gas Corporation (HO&G) with the one exception noted below. Produced oil belongs to HO&G while CIG retains the rights to all produced storage gas. CIG uses one designation for the well while HO&G uses a different well name. All of the listed wells are located in Township 34 South, Range 42 West. Sec. 5.

<u>CIG</u> <u>Well Name</u>	<u>HO&G</u> <u>Lease Name</u>	<u>Location</u>
Flank #13	Tevebaugh #1-7	1980' FSL, 1980' FEL, Sec 7
Flank #14	Tevebaugh #2-7	600' FSL, 660' FEL, Sec 7
Flank #16	Perkins #1-17	330' FNL, 990' FWL, Sec 17
Flank #60	Cossmann #2	330' FNL, 330' FEL, Sec 18
Flank #61	Tevebaugh #3-7	1980' FSL, 660' FEL, Sec 7
Flank #62	O'Connor "A" #1	2310' FNL, 330' FEL, Sec 7
Flank #66	Mader #1-17	330' FNL, 2310' FEL, Sec 17
* Flank #67	*See below <i>SWSW</i>	660' FSL, 985' FWL, Sec 5

The Flank #67 is operated by the Coastal Oil and Gas Corporation (CO&G). CIG retains the rights to produced storage gas while CO&G retains the produced oil. Both firms use the name "Flank #67".

Hopefully this list will help clarify the distinction between those wells which CIG is responsible for within Flank Field and those which it is not. Should you have any questions concerning this please call me.

Sincerely,

Stephen R. Jacobs
Senior Engineer
