General Comment:**ECMC Inspection Report Summary**

On Thursday 8/10/2023, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus PJ 16, at Location # 334656 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Chemical containment full of fluid not sufficient to contain possible spill
2. No evidence of entrance signage or 911 on signage throughout location.
3. Some of location is lacking stabilization.
4. Unknown equipment on location tied into PVC pipe at separators

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
