Comment: This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within twelve months of plugging on non-cropland. Well was plugged 04/13/2016. It does not appear any reclamation work has been performed; gravel and debris remains throughout the well and tank battery locations and the access roads do not appear to have been regraded with evidence of deep rutting. Additional reclamation activities are required in order to comply with Rule 1004. Refer to attached inspection photos.

Corrective Action:	Comply with Rule 1004. Corrective action date is the date the location was observed out of compliance.	Date	08/23/2023
