(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

18. Date of work February 26th, 1987

* Must be accompanied by a cement verification report.

Well was drilled to a total depth of 5732 and electric logs run. One (1) Drill Stem Test was run from 5549' to 5624' but since there was no significant show of oil or gas, well was plugged and abandoned as follows:

- 20 sack cement plug from 90' to 130'
- 10 sack cement plug from surface to 30 feet.

Bottom Hole Cement Plug was waived and hole was filled with heavy mud as requested by Commission Representative on February 26th, 1987.

19. I hereby certify that the foregoing is true and correct
