Statutory Authority for explosive materials. Section 9-7-105, C.R.S.

Statement of Basis & Purpose: these regulations are promulgated to establish rules for the use, manufacture, possession, sale, storage, transport, or disposal of explosives materials or blasting agents in the interest of the life, health, and safety of employees and the general public, as well as the protection of property.

Except as specifically allowed by the regulations, it is unlawful for any person to use, possess, control, manufacture, purchase, sell, store, transport, or dispose of any explosive material without possessing a valid permit from the division of Oil and Public Safety.

- **Type I Permit**: A permit required by and issued by the Division of Oil and Public Safety to individuals who posses and control or have access to explosives materials during the use, transportation, storage, distribution, manufacturing, sale, acquisition, or purchase of explosives materials.
- **Type II Permit**: A permit required by and issued by the Division of Oil and Public Safety to corporations, companies, partnerships, firms, individuals operating a business, associations, or state or local government agencies involved in the use, purchase, sale, manufacture, transportation, or disposals of explosives.
- **Type III Permit**: A permit required by and issued by the Division of Oil and Public Safety to corporation, companies, partnerships, firms, individuals operating a business, associations, or state or local government agencies for the storage of explosives in approved magazines.
