APPLICATION

Verdad Resources LLC (Operator No. 10651) (“Verdad” or “Applicant”), by and through its attorneys Burns, Figa & Will, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the “Commission”) for an order to establish an approximate 1,280-acre drilling and spacing unit for the Application Lands for the production of oil, gas, and associated hydrocarbons from the Niobrara and Codell formations, and approve up to sixteen (16) horizontal wells drilled from a maximum of three (3) well pads for the production of oil, gas, and associated hydrocarbons from the Niobrara and Codell formations on the following described lands:

Township 1 South, Range 65 West, 6th P.M.
Section 17: All
Section 20: All

Adams County, Colorado (containing a total of approximately 1,280 acres)

Referred herein as the “Application Lands.” A reference map depicting the Application Lands is attached hereto and marked as Exhibit A.

In support of its Application, Verdad states and alleges as follows:

1. Verdad is a corporation duly authorized to do business in Colorado and is a registered Operator in good standing with the Commission.
2. Verdad is an Owner with the right to drill into and produce from the Application Lands.
3. On February 19, 1992, the Commission entered Order No. 407-87 (amended August 20, 1993) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas, and associated hydrocarbons from the Codell-Niobrara formations, the Codell formation, and the Niobrara formation underlying certain lands, including the Application Lands, with the permitted well locations in accordance with the provisions of Order No. 407-1.

4. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well, and to commingle any or all of the Cretaceous Age formations from the base of the Dakota formation to the surface. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of Greater Wattenberg Area wells. On December 5, 2005, Rule 318A was amended, among other things, to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was again amended, among other things, to address drilling of horizontal wells. The Application Lands are subject to Rule 318A for the Codell and Niobrara formations.

5. Verdad requests that the Commission approve the development of up to sixteen (16) horizontal wells in the proposed approximate 1,280-acre drilling and spacing unit for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara formations. The proposed wells will be drilled from surface locations described in Rule 318A or on other lands with consent of the landowner, unless an exception is granted by the Director. The wells will be stacked by formation to comply with the minimum distances from the outer boundaries of the proposed drilling and spacing unit and from any other well producing from the Codell and Niobrara formations.

6. Applicant states that, for any permitted wells to be drilled under this Application, the treated intervals of the wellbores shall be no less than 460 feet from the unit boundaries and the interwell setbacks shall be no less than 150 feet from the treated interval of any other well producing from the Niobrara and Codell formations, unless an exception is granted by the Director.

7. The proposed wells shall be drilled from a maximum of three (3) well pads located within the approximate 1,280-acre drilling and spacing unit, or on adjacent lands with consent of the landowner, unless an exception is granted by the Director.

8. The granting of this Application is in accordance with the Oil and Gas Conservation Act, C.R.S. § 34-60-101 et seq., and the Commission Rules.

9. Verdad requests that the relief granted under this Application be effective upon oral order of the Commission, and Verdad hereby agrees to be bound by such oral order.

10. The undersigned certifies that copies of this Application will be served on each interested party at least thirty-five (35) days in advance of any Commission hearing at which the matter will first be heard, pursuant to Rule 507.

WHEREFORE, Verdad respectfully requests that this matter be set for hearing at the next available opportunity, that notice be given as required by law, and that the Commission enter an Order to:

- A. Establish an approximate 1,280-acre drilling and spacing unit for the Application Lands and approve 16 horizontal wells in the proposed unit, for production of oil, gas, and associated hydrocarbons from the Niobrara and Codell formations;
- B. Require the productive interval of the wellbore of any permitted wells in the unit to be located no closer than 460 feet from the unit boundaries, and no closer than 150 feet from the productive interval of any other wellbore located in the unit; and
- C. Provide that the wells shall be drilled a maximum of three (3) well pads within the unit subject to Rule 318A. or on adjacent lands, unless an exception is granted by the Director.

DATED this 25th day of August, 2017.

Respectfully submitted,

VERDAD RESOURCES LLC
