

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO**

IN THE MATTER OF THE AMENDED
APPLICATION OF NOBLE ENERGY, INC.,
FOR AN ORDER TO ESTABLISH AN
APPROXIMATE 2,560-ACRE DRILLING AND
SPACING UNIT FOR SECTIONS 7, 8, 17 AND
18, TOWNSHIP 9 NORTH, RANGE 58 WEST,
6TH P.M., TO APPROVE UP TO THIRTY (30)
NEW HORIZONTAL WELLS IN THE 2,560-
ACRE UNIT FOR THE DEVELOPMENT AND
OPERATION OF THE **FORT HAYS, CARLILE**,
CODELL AND NIOBRARA FORMATIONS,
WELD COUNTY, COLORADO

CAUSE NO.

DOCKET NO. 171000682

TYPE: SPACING

AMENDED APPLICATION

COMES NOW Noble Energy, Inc. (Operator No. 100322) ("Applicant"), by and through its undersigned attorneys, and respectfully submits this Amended Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order to establish an approximate 2,560-acre drilling and spacing unit for Sections 7, 8, 17 and 18, Township 9 North, Range 58 West, 6th P.M., for the development and operation of the **Fort Hays, Carlile**, Codell and Niobrara Formations and to approve up to thirty (30) new wells in the proposed approximate 2,560-acre drilling and spacing unit for the efficient and economic development of oil, gas, and associated hydrocarbons from the **Fort Hays, Carlile**, Codell and Niobrara Formations underlying the below-described lands. In support of its Amended Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and is a registered operator in good standing with the Commission.

2. Applicant is an Owner as defined by the Colorado Oil and Gas Conservation Act, § 34-60-103(7) and the Commission 100 Series Rules, owns leasehold interests and/or has the right to drill and produce on the following lands (hereafter "Application Lands"):

Township 9 North, Range 58 West, 6th P.M.

Section 7: All

Section 8: All

Section 17: All

Section 18: All

2,560 acres, more or less, Weld County, Colorado.

A reference map of the Application Lands is attached hereto.

3. On February 22, 2011, the Commission entered Order No. 535-3 which established, among other things, 640-acre drilling and spacing units for the Application Lands and allowed one (1) horizontal well to be drilled for the production of oil, gas and associated hydrocarbons from the Niobrara Formation. Order No. 535-3 also established 600' setbacks from the boundaries of the drilling and spacing unit without an exception being granted by the Director of the Commission. Order 535-3 applies each section of the Application Lands.

4. On June 17, 2014, the Commission entered Order No. 535-495 which, among other things, established 300' setbacks as to the western boundary section lines of Section 7 of the Application Lands.

5. The Commission records reflect that there are four (4) horizontal wells currently producing from the Niobrara Formation in the Application Lands, which are as follows:

- a. Timbro Federal LD07-78HN (API No. 05-123-37002)
- b. Timbro Federal LD08-62HN (API No. 05-123-33067)
- c. Timbro Federal LD17-76HN (API No. 05-123-33087)
- d. Timbro Federal LD18-74HN (API No. 05-123-36263)

6. Applicant requests that the Commission allow for the above-referenced four (4) horizontal wells to remain under their existing 640-acre drilling and spacing units as to the Niobrara Formation for purposes of payment of proceeds, and that the existing wells shall be excluded from the proposed 2,560-acre drilling and spacing unit proposed in this Application.

7. To promote efficient drainage within the **Fort Hays, Carlile**, Codell and Niobrara Formations of the Application Lands, to protect correlative rights and to avoid waste, the Commission should establish an approximate 2,560-acre drilling and spacing unit for Application Lands for the efficient and economic development and operation of the **Fort Hays, Carlile**, Codell and Niobrara Formations.

8. The above-proposed drilling and spacing unit will allow efficient drainage of the **Fort Hays, Carlile**, Codell and Niobrara Formations; will prevent waste; will not adversely affect correlative rights and will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the reservoirs. The unit of the size and shape specified above is not smaller than the maximum area that can be economically and efficiently drained by the proposed well in the unit.

9. Noble maintains that there will be no more than five (5) new well pads in the unit, or adjacent thereto, unless an exception is granted by the Director.

10. The treated interval of each proposed horizontal well shall be no closer than 200 feet on the northern and southern boundaries of the proposed unit and 300 feet on the eastern and western boundaries of the proposed unit (regardless of lease lines within the unit), unless an exception is granted by the Director, and all horizontal wells shall be no closer than 150 feet from the treated interval of another well producing from the same supply within the unit, unless a waiver or consent is obtained from the operator of such well.

11. Noble is requesting to drill and complete up to thirty (30) new horizontal wells in the proposed approximate 2,560-acre drilling and spacing unit (**at the time of this filing, the horizontal wells are intended to be oriented in a north to south/south to north orientation**) for the efficient and economic development of oil, gas and associated hydrocarbons from the **Fort Hays, Carlile**, Codell and Niobrara Formations underlying the Application Lands.

12. The undersigned certifies that copies of this Application will be served on each interested party as required by Rule 507 within seven (7) days of the filing hereof, as required by Rule 503.e.

13. The granting of this Application is in accord with the Oil and Gas Conservation Act, found at §§ 34-60-101 *et seq.*, C.R.S., and the Commission Rules.

14. Applicant requests that relief granted under this Application should be effective on oral order by the Commission, and Applicant hereby agrees to be bound by said oral order.

WHEREFORE, Noble respectfully requests that this matter be set for hearing in October, 2017, that notice be given as required by law, and that upon such hearing, the Commission enter its order:

A. Establishing an approximate 2,560-acre drilling and spacing unit for Sections 7, 8, 17 and 18, Township 9 North, Range 58 West, 6th P.M., and allowing up to thirty (30) new horizontal wells in the unit in order to efficiently and economically develop and recover the **Fort Hays, Carlile**, Codell and Niobrara Formations in the unit.

B. Providing that the treated interval of each proposed horizontal well shall be no closer than 200 feet on the northern and southern boundaries of the proposed unit and 300 feet on the eastern and western boundaries of the proposed unit (regardless of lease lines within the unit), unless an exception is granted by the Director, and authorizing up to five (5) new well pads within the unit, or adjacent thereto, unless an exception is granted by the Director.

C. Finding that the approximate 2,560-acre drilling and spacing unit for the development of oil, gas, and associated hydrocarbons from the **Fort Hays, Carlile**, Codell and Niobrara Formations underlying the Application Lands will prevent waste,

protect correlative rights, and maximize the efficient and economic production of the **Fort Hays, Carlile**, Codell and Niobrara Formations in Sections 7, 8, 17 and 18, Township 9 North, Range 58 West, 6th P.M.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

DATED ~~September~~ August 21, 2017.

Respectfully submitted:

NOBLE ENERGY, INC.
