OF THE STATE OF COLORADO

IN THE MATTER OF THE	)	
PROMULGATION AND	)	Cause No. 112
ESTABLISHMENT OF FIELD RULES	)	
TO GOVERN OPERATIONS IN THE	)	Docket No. 180100019
IGANCIO-BLANCO FIELD, LA PLATA	)	
COUNTY COLORADO	)	Type: POOLING

AMENDED APPLICATION

BP America Production Company, Operator No. 10000 ("Applicant"), respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission"), for an order pooling all interests for the development and operation of the Fruitland Coal Formation, to accommodate the **Le Platt B #1 Well**, API No. 05-067-08931, and the **Le Platt B #2 Well**, API No. pending ("Wells"):

Township 34 North, Range 7 West, N.M.P.M. (NUL)
Section 11: E½

La Plata County, Colorado (hereafter "Application Lands").

In support of its Application, Applicant states and alleges as follows:

1. Applicant, Operator No. 10000, is a corporation duly authorized to conduct business in the State of Colorado and is an operator in good standing with the Commission.
2. Applicant owns a leasehold interest in the Application Lands.
3. On June 17, 1988, Order No. 112-60 established 320-acre drilling and spacing units for certain lands including the Application Lands for production of gas from the Fruitland coal seams, with the permitted well to be located no closer than 990 feet to any outer boundary of the unit, nor closer than 130 feet to any interior quarter section line, for the production of methane gas from the Fruitland coal seams.
4. On August 15, 1988, Order No. 112-61 amended parts of Order No. 112-60 and established rules for the production of coalbed methane in the Fruitland coal seams for certain lands including the Application Lands, with the productive interval of the wellbore to be no closer than 990 feet to any outer boundary of the unit, and no closer than 130 feet to any interior quarter section line, without exception granted by the Director.

5. On December 17, 1990 (Corrected November 7, 1999), Order No. 112-85 established additional field rules for certain lands including the Application Lands for the development and operation of the Fruitland coal seams.

6. **On December 9, 2008, Order No. 112-214 approved up to four wells in certain 320-acre drilling and spacing units, with the permitted well to be located no closer than 660 feet from the unit boundary and with no setback any interior quarter section line, for certain lands including the Application Lands for production of gas and associated hydrocarbons from the Fruitland coal seams.**

7. Applicant, pursuant to the provisions of C.R.S. § 34-60-116(6) & (7) and Commission Rule 530, seeks an order pooling all interests, including, but not limited to, any non-consenting interests, in the Wells and Application Lands, effective as of the earlier of the date of the Application, or the date that any of the costs specified in C.R.S. §34-60-116(7)(b)(II) were first incurred for the drilling of the Wells, and to subject any non-consenting interests **in the Le Platt B #2 Well** to the cost recovery provisions of C.R.S. §34-60-116(7), for the development and operation of the Fruitland Coal Formation.

8. Rule 530 provides that an owner shall be deemed a non-consenting owner if, after at least 35 days' written notice, the owner does not elect in writing to consent to participate in the cost of the well(s) concerning which the pooling order is sought. Applicant certifies that at least 35 days prior to the hearing on this matter, each owner not already leased or voluntarily pooled shall be offered the opportunity to lease and/or participate, as applicable, in the drilling of the Wells, and will be provided with the information required by Rule 530.b. and/or c.

9. Rule 507.b.(2) provides that notice of statutory pooling applications "shall be served on those persons who own any interest in the mineral estate of the tracts to be pooled, except owners of an overriding royalty interest." The list of such persons is attached hereto as Exhibit A and Applicant certifies that copies of this Application shall be served on all persons on Exhibit A within seven days of the date hereof, as required by Rule 503.e.

10. In order to prevent waste and to protect correlative rights, all interests in the Application Lands should be pooled for the orderly development of the Fruitland Coal Formation.

WHEREFORE, Applicant requests that this matter be set for hearing at the next available opportunity that notice be given as required by law, and that upon such hearing, the Commission enter its order:

A. Pooling all interests in the approximate 320-acre drilling and spacing unit comprised of the Application Lands, for the development and operation of the Fruitland Coal Formation, to accommodate the Wells.

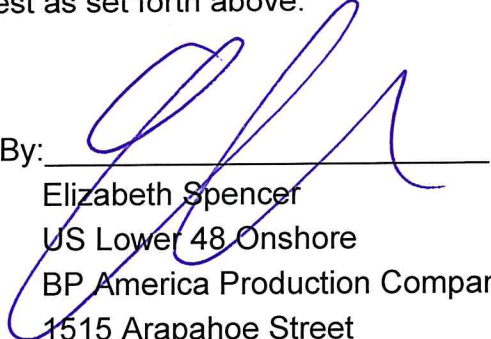

B. Providing that the Commission's pooling order is made effective as of the earlier of the date of this Application, or the date that the costs specified in C.R.S. § 34-60-116(7)(b)(II) are first incurred for the drilling of the Wells to the Fruitland Coal Formation on the Application Lands.

C. Providing that the interests of any owners with whom the Applicant has been unable to secure a lease or other agreement to participate in the drilling of the **Le Platt B # 2 Well** are pooled pursuant to C.R.S. § 34-60-116 and made subject to the cost recovery provisions thereof.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, notice be given as required by law, and that upon such hearing, the Commission enter its order consistent with Applicant's request as set forth above.
