

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO**

IN THE MATTER OF THE APPLICATION OF
GREAT WESTERN OPERATING COMPANY,
LLC FOR AN ORDER TO ESTABLISH AN
APPROXIMATE 1,280-ACRE DRILLING AND
SPACING UNIT AND TO AUTHORIZE UP TO
TWENTY-SIX (26) HORIZONTAL WELLS WITH
WELL LOCATION RULES FOR THE CODELL,
CARLILE AND NIOBRARA FORMATIONS IN
SECTIONS 13 AND 24, TOWNSHIP 1 SOUTH,
RANGE 68 WEST, 6TH P.M., WATTENBERG
FIELD, ADAMS COUNTY, COLORADO

CAUSE NO.

DOCKET NO.

TYPE: SPACING

APPLICATION

Great Western Operating Company, LLC (Operator No. 10110) ("Great Western" or "Applicant"), by and through its attorneys, Jost Energy Law, P.C., respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order to establish an approximate 1,280-acre drilling and spacing unit and to authorize up to twenty-six (26) horizontal wells in the proposed unit in order to efficiently and economically recover the oil, gas and associated hydrocarbons from the Codell, Carlile and Niobrara Formations underlying the below-described lands. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a limited liability company duly organized and authorized to conduct business in the State of Colorado, and is a registered operator in good standing with the Commission.

2. Applicant is an Owner as defined by the Colorado Oil and Gas Conservation Act and Commission Rules and owns leasehold interests or holds the right to operate on the following lands (hereafter "Application Lands"):

Township 1 South, Range 68 West, 6th P.M.

Section 13: All

Section 24: All

Adams County, Colorado, 1,280-acres, more or less.

A reference map of the Application Lands is attached hereto.

3. On February 19, 1992, the Commission entered Order No. 407-87 (amended August 20, 1993) which, among other things, established 80-acre drilling and spacing units for the production of oil, gas and associated hydrocarbons from the Codell and Niobrara Formations, with permitted well locations in accordance with the provisions

of Order No. 407-1. Portions of Section 24 of the Application Lands are subject to this Order for the Codell and Niobrara Formations.

4. On April 27, 1998, the Commission adopted Rule 318A, the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule. The Application Lands are subject to this Rule for the Niobrara and Codell Formations.

5. The records of the Commission reflect that no horizontal wells are currently producing from the Codell, Carlile or Niobrara Formations on the Application Lands. The records of the Commission reflect that the following four (4) vertical wells are currently producing from the Codell and/or Niobrara Formation on the Application Lands:

Well Name	API No.	Operator	Formation(s)
N. Colorado 41-13 #7	05-001-08993	Applicant	Codell; J Sand
N. Colorado Blvd. #1	05-001-07005	Energy Search Co.	Niobrara-Codell-Sussex
N. Colorado Blvd. #24-13-8	05-001-08988	Applicant	Dakota; J Sand; Niobrara-Codell
N. Colorado 44-13 #9	05-001-08992	Applicant	Codell; J Sand

6. Applicant respectfully requests that the existing vertical wells producing from the Codell and/or Niobrara Formation on the Application Lands be excluded from the proposed 1,280-acre drilling and spacing unit and remain subject to their existing spacing for purposes of the payment of proceeds.

7. To promote efficient drainage within the Codell, Carlile and Niobrara Formations of the Application Lands, to protect correlative rights and to avoid waste, the Commission should establish an approximate 1,280-acre drilling and spacing unit for the Codell, Carlile and Niobrara Formations and approve up to twenty-six (26) horizontal wells within the new unit for the production, development and operation of oil, gas and associated hydrocarbons from the Codell, Carlile and Niobrara Formations.

8. The above-proposed drilling and spacing unit will allow efficient drainage of the Codell, Carlile and Niobrara Formations, will prevent waste, will not adversely affect correlative rights and will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the reservoirs. The unit of the size and shape specified above is not smaller than the maximum area that can be economically and efficiently drained by the proposed wells in the unit.

9. The Applicant is requesting to drill and complete up to twenty-six (26) horizontal wells within the unit in order to efficiently and economically recover the oil, gas and associated hydrocarbons from the Codell, Carlile and Niobrara Formations within the approximate 1,280-acre drilling and spacing unit composed of the Application Lands and that there will be no adverse effect on correlative rights of adjacent owners.

10. The Applicant maintains that there will be no surface locations within the proposed unit for the development of the Application Lands. Applicant will utilize no more than one (1) well pad located adjacent to the proposed unit, unless an exception is granted by the Director. Applicant has executed a surface use agreement with the surface owner for the surface location north-east of the Application Lands for the development of the unit.

11. The treated interval of each proposed horizontal well shall be no closer than 460 feet from the boundaries of the unit (regardless of the lease lines within the unit) and all horizontal wells shall be no closer than 150 feet from the treated interval of another well producing from the same source of supply within the unit, unless an exception is granted by the Director.

12. The undersigned certifies that copies of this Application will be served on each interested party within seven (7) days of the filing hereof, as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing on March 19, 2018, that notice be given as required by law, and that upon such hearing this Commission enter its order:

A. Establishing an approximate 1,280-acre drilling and spacing unit for Sections 13 and 24, Township 1 South, Range 68 West, 6th P.M. for the efficient and economic development of one (1) horizontal well to develop and recover the oil, gas and associated hydrocarbons from the Codell, Carlile and Niobrara Formations in the unit.

B. Authorizing an additional twenty-five (25) horizontal wells in the proposed unit, for a total of up to twenty-six (26) horizontal wells in the unit, in order to efficiently and economically develop and recover the oil, gas and associated hydrocarbons from the Codell, Carlile and Niobrara Formations in the unit.

C. Providing that the treated interval of any horizontal well shall be no closer than 460 feet from the boundaries of the unit and not less than 150 feet from the treated interval of another well within the unit, and authorizing one (1) well pad to be located adjacent to the proposed unit, unless an exception is granted by the Director.

D. Finding that an approximate 1,280-acre drilling and spacing unit for the development of the Codell, Carlile and Niobrara Formations on the Application Lands will prevent waste, protect correlative rights, and maximize the efficient and economic production of the Codell, Carlile and Niobrara Formations on the Application Lands.

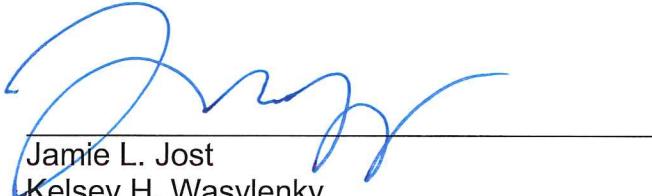

E. For such other findings and orders as the Commission may deem proper or advisable in this matter.

DATED January 10th, 2018.

Respectfully submitted:

Great Western Operating Company, LLC
