

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION  
OF THE STATE OF COLORADO**

IN THE MATTER OF THE APPLICATION OF  
CRESTONE PEAK RESOURCES OPERATING  
LLC FOR AN ORDER AUTHORIZING UP TO  
FORTY (40) HORIZONTAL WELLS IN A 1,920  
ACRE DRILLING AND SPACING UNIT FOR  
PORTIONS OF SECTIONS 22, 23, 26 AND 27,  
TOWNSHIP 1 NORTH, RANGE 68 WEST 6<sup>TH</sup>  
P.M. FOR THE DEVELOPMENT AND  
OPERATION OF THE CODELL AND  
NIOBRARA FORMATIONS, WATTENBERG  
FIELD, WELD AND BROOMFIELD COUNTIES,  
COLORADO

CAUSE NO. 407

DOCKET NO. 180300 \_\_\_\_

TYPE: ADDITIONAL WELLS

APPLICATION

COMES NOW Crestone Peak Resources Operating LLC (Operator No. 10633) ("Applicant"), by and through its undersigned attorneys, and respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (the "Commission") for an order authorizing up to forty (40) horizontal wells within a proposed approximate 1,920-acre drilling and spacing unit for Sections 22: E½, 23, 26 and 27: E½, Township 1 North, Range 68 West, 6<sup>th</sup> P.M., Weld and Broomfield Counties, Colorado in order to efficiently and economically recover the oil, gas and associated hydrocarbons from the Codell and Niobrara Formations underlying the below-described lands. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a limited liability corporation duly authorized to conduct business in the State of Colorado, and is a registered operator in good standing with the Commission.

2. Applicant owns leasehold interests or holds the right to operate on the following lands (hereafter "Application Lands"):

Township 1 North, Range 68 West, 6<sup>th</sup> P.M.

Section 22: E½

Section 23: All

Section 26: All

Section 27: E½

1,920 acres, more or less, Weld and Broomfield Counties, Colorado.

A reference map of the Application Lands is attached hereto.

3. On February 19, 1992, the Commission entered Order No. 407-87 which, among other things, established eighty (80) acre drilling and spacing units for vertical and/or directional wells for the production of oil and/or gas from the Codell-Niobrara Formations. The Application Lands are subject to Order No. 407-87 as it applies to the existing vertical and/or directional well development and operation of the Codell and Niobrara Formations on the Application Lands.

4. On April 27, 1998, the Commission adopted Rule 318A, which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A was amended to, among other things, address drilling of horizontal wells. The August 8, 2011 amendment did not prohibit the establishment of drilling and spacing units within the Greater Wattenberg Area. The Application Lands are within the Greater Wattenberg Area and are subject to the 460' subsurface setback for the Codell and Niobrara Formations.

5. The Commission records reflect that there are no horizontal wells producing from the Codell and Niobrara Formations on the Application Lands. Further, Commission records reflect that there are no horizontal wells producing from any geologic formation underlying the Application Lands.

6. The Commission records reflect that there is a substantial amount of vertical and/or directional wells producing to various geologic formations underlying the Application Lands, including the Codell and Niobrara Formations. *Please see Exhibit 1 attached to this Application.* Applicant respectfully requests that such existing wells be excluded from the proposed 1,920-acre drilling and spacing unit and remain subject to each respective drilling and spacing unit or designated wellbore spacing unit, and allocation of production of proceeds, established by the Commission.

7. In order to promote efficient drainage within the Codell and Niobrara Formations of the Application Lands, to protect correlative rights, to avoid waste, and to minimize surface impacts, Applicant, after consultation with the City and County of Broomfield as a Protestant, filed an Amended Application in Docket No. 170900522 requesting that Commission establish an approximate 1,920-acre drilling and spacing unit for one (1) horizontal well for Sections 22: E½, 23, 26 and 27: E½, Township 1 North, Range 68 West, 6<sup>th</sup> P.M., Weld and Broomfield Counties, Colorado for the efficient and economic development and operation of the Codell and Niobrara Formations. Applicant's Amended Application is scheduled to be heard at the March 19-20, 2018 Commission hearing.

8. By this Application, Applicant is requesting to drill and complete up to forty (40) horizontal wells in the proposed approximate 1,920-acre drilling and spacing unit subject to Docket No. 170900522 for the efficient and economic development of oil, gas

and associated hydrocarbons from the Codell and Niobrara Formations underlying the Application Lands.

9. The proposed drilling and spacing unit for the Application Lands and the forty (40) horizontal well density within such unit will allow efficient drainage of the Codell and Niobrara Formations; will prevent waste; will not adversely affect correlative rights, will assure the greatest ultimate recovery of gas and associated hydrocarbon substances from the reservoirs and will reduce surface impact to the Application Lands.

10. The treated interval of each proposed horizontal well shall be no closer than 460 feet from the boundaries of the unit (regardless of lease lines within the unit), and all horizontal wells shall be no closer than 150 feet from the treated interval of another well producing from the same supply within the unit, unless an exception is granted by the Director.

11. Applicant is filing this increased density Application, separate from the Amended spacing application in Docket No. 170900522, after consultation with the City and County of Broomfield on certain allegations in its Protest. Applicant does not agree that this separate increased density filing is required by current Colorado law and reserves its right to assert its position on such amendment at hearing, if necessary.

12. The undersigned certifies that copies of this Application will be served on each interested party as required by Rule 507 within seven (7) days of the filing hereof, as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing in March 2018, that notice be given as required by law, and that upon such hearing, the Commission enter its order:

A. Allowing up to forty (40) horizontal wells in the approximate 1,920-acre drilling and spacing unit for the development and operation of the Codell and Niobrara Formations in the unit.

B. Providing that the treated interval of any horizontal well shall be no closer than 460 feet from the unit boundaries, and not less than 150 feet from the treated interval of another well within the unit, unless an exception is granted by the Director.

C. Finding that allowance of forty (40) wells within the approximate 1,920-acre drilling and spacing unit for the development of oil, gas, and associated hydrocarbons from the Codell and Niobrara Formations underlying the Application Lands will prevent waste, protect correlative rights, and maximize the efficient and economic production of the Codell and Niobrara Formations in the Application Lands.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

DATED January 22, 2018.

Respectfully submitted:

**CRESTONE PEAK RESOURCES OPERATING LLC**
