TOWNSHIP 11 NORTH, RANGE 66 WEST,)	
6TH P.M., UNNAMED FIELD, WELD COUNTY,)	
COLORADO.)	

AMENDED APPLICATION

Edge Energy II, LLC, Operator No. 10671 (“Applicant” or “Edge”), by and through its attorneys, Welborn Sullivan Meck & Tooley, P.C., respectfully submits this **Amended** Application to the Oil and Gas Conservation Commission of the State of Colorado (“Commission”) for an order establishing two approximate 1,280-acre drilling and spacing units for the below described Application Lands, and approving up to twelve (12) horizontal wells within each unit, for the production of oil, gas, and associated hydrocarbons from the Niobrara, Fort Hays, Codell and Carlile Formations. In support of its **Amended** Application, Applicant states as follows:

1. Applicant is a limited liability company duly authorized to conduct business in the State of Colorado and is a registered operator in good standing with the Commission.

2. Applicant owns leasehold interests in the following-described lands (“Application Lands”), and is an owner as defined by Commission Rules and the Conservation Act with standing to bring this **Amended** Application:

Drilling and Spacing Unit (“DSU”) No. 1

Township 11 North, Range 66 West, 6th P.M.

Section 16: All

Section 21: All

DSU No. 2

Township 11 North, Range 66 West, 6th P.M.

Section 23: All

Section 24: All

A reference map of the Application Lands is attached as Exhibit B hereto.

3. Rule 318.a. provides that for unspaced lands, a well drilled in excess of 2,500 feet in depth shall be located not less than 600 feet from any lease line, and shall be located not less than 1,200 feet from any other producible or drilling oil or gas well when drilling to the same source of supply, unless authorized by order of the Commission upon hearing. The Application Lands are subject to this Rule.

4. To promote efficient drainage, to protect correlative rights, and to prevent waste, the Commission should establish two approximate 1,280-acre drilling and spacing units for the above-described Application Lands, and approve up to twelve (12) horizontal wells within each unit, for the production of oil, gas, and associated hydrocarbons from the Niobrara, Fort Hays, Codell, and Carlile Formations.

5. Applicant requests that the productive interval of the permitted horizontal wells within each unit be located no closer than 150 feet from the productive interval of any other horizontal wellbore within the same unit producing oil, gas, and associated hydrocarbons from the Niobrara, Fort Hays, Codell and Carlile Formations, and be located no closer than **300** ~~600~~ feet from the respective unit boundaries, without exception being granted by the Director.

6. Applicant requests the establishment of the above-proposed drilling and spacing units and authority to drill only those wells necessary to determine the well density that will allow for efficient drainage of the Niobrara, Fort Hays, Codell and Carlile Formations, that will prevent waste, that will not adversely affect correlative rights and that will assure the greatest ultimate recovery of oil, gas and associated hydrocarbons from each unit. Applicant maintains that the proposed drilling and spacing units are not smaller than the maximum area that can be economically and efficiently drained by the requested number of wells within such unit. Applicant further maintains that wells drilled in the above-proposed drilling and spacing units will have no adverse effect on correlative rights of adjacent owners.

7. The Applicant states the proposed horizontal wells will be drilled from no more than four locations within each unit or at a legal location(s) on adjacent lands, without exception being granted by the Director.

8. The names and addresses of the interested parties according to the information and belief of the Applicant are set forth in Exhibit A attached hereto and made a part hereof, and the undersigned certifies that copies of the Application ~~shall be~~ **were** served on each interested party within seven days as required by Rule 503.e and 507.b.(1). **Applicant further certifies that a copy of this Amended Application will be served on each additional interested party within seven days as required by Rule 503.e and 507.b.(1), and that all interested parties to the matter will be delivered notice at least 35 days in advance of the date of hearing.**

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice be given as required by law and that upon such hearing this Commission enter its order consistent with Applicant's proposals as set forth above.

Dated this ___ day of July, 2018.

Respectfully submitted,

WELBORN SULLIVAN MECK & TOOLEY, P.C.
