FROM THE CODELL, FORT HAYS, CARLILE, AND)	
NIOBRARA FORMATIONS, HEREFORD FIELD, WELD)	
COUNTY, COLORADO)	

APPLICATION

CCRP Operating Inc. (“CCRP” or “Applicant”), Operator #10665, by and through its attorneys, Poulson, Odell & Peterson, LLC, respectfully submits this Application to the Oil and Gas Conservation Commission of the State of Colorado (“Commission” or “COGCC”) for an order: (1) vacating two approximate 640-acre drilling and spacing units established by Order No. 421-3 for Section 35, Township 12 North, Range 62 West, 6th P.M., and Section 2, Township 11 North, Range 62 West, 6th P.M., which authorized the drilling of one horizontal well within said units, for production of oil, gas and associated hydrocarbons from the Niobrara Formation, and (2) amending Order No. 421-47 to establish an approximate 1,280-acre drilling and spacing unit for said Sections 35 and 2, and authorize the drilling of 14 horizontal wells within the proposed unit, for production of oil, gas and associated hydrocarbons from the Codell, Fort Hays, Carlile, and Niobrara Formations. In support of this Application (“Application”), Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and has registered as an operator with the COGCC.

2. Applicant owns substantial leasehold interests in the below-listed lands (“Application Lands”):

Township 12 North, Range 62 West, 6th P.M.

Section 35: All

Township 11 North, Range 62 West, 6th P.M.

Section 2: All

Exhibit A is attached hereto and depicts the Application Lands which consist of approximately 1,280 acres.

3. COGCC Rule 318.a. provides that for any oil or gas well drilled to a common source of supply and drilled to a producing depth at least 2,500 feet below ground surface shall be located not less than 600 feet from any lease line and not less than 1,200 feet from any other producing or drilling oil or

gas well when drilling to the same source of supply, unless authorized by Commission order upon hearing. The Application Lands are subject to this Rule for production of oil and gas from the Fort Hays and Carlile Formations.

4. On October 21, 2010, the Commission issued Order No. 421-3 which, among other things, established approximate 640-acre drilling and spacing units for both Section 35, Township 12 North, Range 62 West, 6th P.M., and Section 2, Township 11 North, Range 62 West, 6th P.M., and approved one horizontal well within said units, for the production of oil, gas and associated hydrocarbons from the Niobrara Formation, with the treated interval of any permitted well located not less than 600 feet from unit boundaries.

5. On December 15, 2014, the Commission issued Order No. 421-47 which, among other things, established an approximate 1,280-acre drilling and spacing unit for the Application Lands, and approved four horizontal wells within said unit, for the production of oil, gas and associated hydrocarbons from the Codell Formation, with the treated interval of any permitted well located not less than 300 feet from unit boundaries and not less than 600 feet from any other well or treated interval of a well producing from the Codell Formation.

Vacating two approximate 640-acre drilling and spacing units for Section 35, Township 12 North, Range 62 West, 6th P.M., and Section 2, Township 11 North, Range 62 West, 6th P.M., for production from the Niobrara Formation

6. Applicant herein requests Order No. 421-3 which, among other things, established approximate 640-acre drilling and spacing units for both Section 35, Township 12 North, Range 62 West, 6th P.M., and Section 2, Township 11 North, Range 62 West, 6th P.M., be vacated. By vacating these units, Applicant will herein propose the establishment of an approximate 1,280-acre drilling and spacing unit for the Application Lands, and authority to drill 14 horizontal wells within the proposed unit, for production of oil, gas and associated hydrocarbons from the Codell, Fort Hays, Carlile, and Niobrara Formations. This proposed development plan will allow the drilling of 14 two-mile laterals running north-to-south or south-to-north within the proposed unit, thereby preventing waste while protecting correlative rights within, and adjacent to, the proposed unit area.

Establishment of an approximate 1,280-acre drilling and spacing unit for the Application Lands, for production from the Codell, Fort Hays, Carlile, and Niobrara Formations

7. Applicant herein seeks to amend Order No. 421-47 to establish an approximate 1,280-acre drilling and spacing unit for the Application Lands, and the authority to drill 14 horizontal wells within the proposed unit, for production of oil, gas and associated hydrocarbons from the Codell, Fort Hays, Carlile, and Niobrara Formations. The establishment of the drilling and spacing unit is not smaller than the area which can be efficiently and economically drained by the drilling of the requested horizontal wells to be drilled within the proposed unit.

8. Applicant herein requests the treated intervals of any horizontal well permitted under this Application should be located not less than 300 feet from proposed unit boundaries and not less than 150

feet from the treated interval of any other well producing or drilling from the Codell, Fort Hays, Carlile, and/or Niobrara Formations, without exception being granted by the Director.

9. Further, Applicant herein requests any permitted wells drilled under this Application should be located on no more than four multi-well pads within the drilling and spacing unit, or on adjacent lands with surface owner consent, without exception being granted by the Director.

10. The granting of this Application is in accord with the Oil and Gas Conservation Act found at §34-60-101, *et seq.*, C.R.S., and the COGCC rules.

11. Applicant requests that relief granted as result of this Application should be effective on oral order by the Commission, and Applicant hereby agrees to be bound by the oral order of the Commission.

12. That the names and addresses of interested parties (owners within the Application Lands and those owners of lands cornering or adjacent to the Application Lands) according to the information and belief of the Applicant are set forth in Exhibit B. The Applicant shall submit a certificate of service for the Application within seven days as required by Rule 503.e.

WHEREFORE, Applicant respectfully requests this matter be set for hearing, notice be given as required by law, and that upon such hearing the Commission enter its order:

A. Vacating approximate 640-acre drilling and spacing units established by Order No. 421-3 for both Section 35, Township 12 North, Range 62 West, 6th P.M., and Section 2, Township 11 North, Range 62 West, 6th P.M., which authorized the drilling of one horizontal well within each unit, for production of oil, gas and associated hydrocarbons from the Niobrara Formation.

B. Amending Order No. 421-47 to establish an approximate 1,280-acre drilling and spacing unit for the Application Lands, and authorizing the drilling of 14 horizontal wells within the proposed unit, for the production of oil, gas and associated hydrocarbons from the Codell, Fort Hays, Carlile, and Niobrara Formations, with the treated interval of any horizontal well permitted under this Application located not less than 300 feet from unit boundaries and not less than 150 feet from any other well producing or drilling from the Codell, Fort Hays, Carlile, and/or Niobrara Formations, without exception being granted by the Director.

C. Limiting the drilling of any permitted wells under this Application to no more than four multi-well pads within the drilling and spacing unit, or on adjacent lands with surface owner consent, without exception being granted by the Director.

D. For such other findings and orders as the Commission may deem proper or advisable given the premises.

DATED this 30th day of April, 2018.

Respectfully submitted,

CCRP OPERATING INC.
