WATTENBERG FIELD, WELD COUNTY, COLORADO

CAUSE NO. 407

DOCKET NO. 190300199

TYPE: SPACING AND
DENSITY

AMENDED APPLICATION

SRC Energy Inc. (Operator No. 10311) ("SRC" or "Applicant"), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this **Amended** Application ("**Application**") to the Oil and Gas Conservation Commission of the State of Colorado ("Commission") for an order establishing an approximate 1,556-acre drilling and spacing unit for portions of Sections 26, 27, 34, and 35, Township 6 North, Range 66 West, 6th P.M. and portions of Sections 2 and 3, Township 5 North, Range 66 West, 6th P.M., and authorizing the drilling of up to 26 horizontal wells within the proposed unit, for the production of oil, gas, and associated hydrocarbons from the Niobrara and Codell Formations. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and has registered as an operator with the Commission.

2. Applicant is an owner in the below-listed lands:

Township 6 North, Range 66 West, 6th P.M.

Section 26: S $\frac{1}{2}$ SW $\frac{1}{4}$

Section 27: S $\frac{1}{2}$ SE $\frac{1}{4}$

Section 34: E $\frac{1}{2}$

Section 35: W $\frac{1}{2}$

Township 5 North, Range 66 West, 6th P.M.

Section 2: W $\frac{1}{2}$

Section 3: E $\frac{1}{2}$

1,556 acres, more or less, Weld County, Colorado.¹

¹ The Application Lands contain irregular lots. Acreage in this area is based on the known survey markers found in the field. Accordingly, the acreage comprising the drilling and spacing unit has been modified to reflect the presence of irregular quarter-quarter sections.

These lands are hereinafter referred to as the "Application Lands" and depicted in Amended Exhibit A attached hereto. **The Application Lands lie approximately two miles west of the Highway 85 and north of Highway 34.**

3. On April 27, 1998, the Commission adopted Rule 318A. which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A. was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A. was again amended to, among other things, address drilling of horizontal wells. The Application Lands are subject to Rule 318A.

4. The online records maintained by the COGCC indicate that numerous vertical and directional wells are currently producing from the Niobrara and/or Codell Formations in the Application Lands, as depicted on Exhibit B attached hereto. Applicant hereby confirms that each of these wells shall remain subject to applicable spacing orders of the Commission, and shall not be affected by Applicant's requested relief under this Application. Proceeds from the sale of oil or gas from these wells shall continue to be distributed based on the applicable spacing orders for these wells. As of the date of this Application, no horizontal wells have been drilled within the proposed unit. **Furthermore, there are a number of wellbore spacing units established pursuant to Rule 318A located within the Application Lands. These wellbore spacing units will be unaffected by this application.**

Establishing an approximate 1,556-acre drilling and spacing unit and authorizing up to 26 horizontal wells for development of the Niobrara and Codell Formations

5. Applicant requests the Commission establish the Application Lands as an approximate 1,556-acre drilling and spacing unit for the Niobrara and Codell Formations pursuant to Rule 503.b.(1) and §34-60-116(2), C.R.S. For the Application Lands, the proposed drilling unit is not smaller than the maximum area that can be economically and efficiently drained by the horizontal wells proposed to be drilled under this Application and completed in the Niobrara and Codell Formations.

6. Applicant requests it be authorized to drill and complete up to 26 horizontal wells in the approximate 1,556-acre drilling and spacing unit proposed for the Application Lands, for the production of oil, gas, and associated hydrocarbons from the Niobrara and Codell Formations, as necessary to economically and efficiently recover resources, while minimizing surface impacts, creating efficiencies for drilling and production, increasing the ultimate recovery of the reserves, preventing waste, and protecting correlative rights.

Setback and Location Requirements

7. Applicant requests that setback and location requirements for the Application Lands be as follows:

a. For any permitted wells to be drilled under this Application, the treated intervals of the wellbore should be not less than 460 feet from the boundaries of the proposed unit, with an inter-well setback of not less than 150 feet from the treated interval of a well producing from the Niobrara and Codell Formations, without exception being granted by the Director.

b. Any horizontal wells to be drilled under this Application for production from the Niobrara and Codell Formations will be drilled in a north/south orientation, from the surface of the drilling unit, or on adjacent lands with consent of the landowner, from no more than two surface locations, unless an exception is granted by the Director.

8. The granting of this Application is in accord with the Oil and Gas Conservation Act, found at §34-60-101, *et seq.*, C.R.S., and the Commission rules.

9. Applicant requests that relief granted under this Application should be effective on oral order by the Commission, and Applicant hereby agrees to be bound by said oral order.

10. The undersigned certifies that copies of this Application will be served on each interested party as required by Rules 507 and 503.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice be given as required by law and that upon such hearing, this Commission enter its order:

A. Establishing an approximate 1,556-acre drilling and spacing unit for Application Lands, and authorizing the drilling of up to 26 horizontal wells within the unit, for the production of oil, gas, and associated hydrocarbons from the Niobrara and Codell Formations, with the treated intervals of the wellbore of any permitted wells to be located not less than 460 feet from the boundaries of the proposed unit, with an inter-well setback of not less than 150 feet from the treated interval of a well producing from the Niobrara and Codell Formations, without exception being granted by the Director.

B. For such other findings and orders as the Commission may deem proper or advisable in the premises.

DATED this ~~10th~~ 31st day of January, 2019.

Respectfully submitted,

SRC ENERGY INC.
