CAUSE NO. 407

DOCKET NO. 190300201

TYPE: POOLING

**AMENDED APPLICATION**

SRC Energy Inc., Operator No. 10311 ("SRC" or "Applicant"), by and through its attorneys, Beatty & Wozniak, P.C., respectfully submits this **Amended** Application (**"Application"**) to the Oil and Gas Conservation Commission of the State of Colorado ("Commission") for an order pooling all interests in a drilling and spacing unit established for Sections 27, 28, 29, and 30, Township 5 North, Range 66 West, 6<sup>th</sup> P.M., for the development and operation of the Codell and Niobrara Formations. In support of its Application, Applicant states and alleges as follows:

1. Applicant is a corporation duly authorized to conduct business in the State of Colorado, and has registered as an operator with the Commission.
2. Applicant owns a leasehold interest in the below-listed lands:

Township 5 North, Range 66 West, 6<sup>th</sup> P.M.

Section 27: All

Section 28: All

Section 29: All

Section 30: All

2,560 acres, more or less, Weld County, Colorado.

These lands are hereinafter referred to as the "Application Lands" and depicted in **Amended Exhibit A** attached hereto. **The Application Lands lie approximately one mile south of Highway 34 and three miles west of Highway 85.**

3. On April 27, 1998, the Commission adopted Rule 318A. which, among other things, allowed certain drilling locations to be utilized to drill or twin a well, deepen a well or recomplete a well and to commingle any or all of the Cretaceous Age Formations from the base of the Dakota Formation to the surface. On December 5, 2005, Rule 318A. was amended to allow interior infill and boundary wells to be drilled and wellbore spacing units to be established. On August 8, 2011, Rule 318A. was again amended to, among other things, address drilling of horizontal wells. The

Application Lands are subject to Rule 318A.

Prior Orders applicable to Application Lands

4. On May 1, 2017, the Commission entered Order No. 407-1954 which, among other things, established an approximate 2,560-acre drilling and spacing unit for the Application Lands, and authorized the drilling of up to 26 horizontal wells within the unit, for the Codell and Niobrara Formations underlying the Application Lands.

5. On July 24, 2017, the Commission entered Order No. 407-2113 which, among other things, amended Order No. 407-1954 to allow not less than 100 feet from the productive interval of another well within the unit, unless an exception is granted by the Director, for any of the allowed horizontal wells within the approximate 2,560-acre drilling and spacing unit established by Order No. 1954.

6. On April 30, 2018, the Commission entered Order No. 407-2436 which, among other things, increased the well density from 24 horizontal wells to 40 horizontal wells in the approximate 2,560-acre drilling and spacing unit established by Order No. 1954 for the Application Lands, for the Codell and Niobrara Formations underlying the Application Lands.

7. Applicant has filed concurrently herewith an application ("Increased Density Application") requesting that the Commission authorize the drilling of up to 44 horizontal wells in the approximate 2,560-acre drilling and spacing unit established by Order No. 207-1954 for Codell and Niobrara Formations underlying the Application Lands.

8. Pursuant to and consistent with prior Order Nos. 407-1954, 407-2113, 407-2436, and the Increased Density Application, Applicant plans to drill the 44 below-described wells within the Application Lands, for the production of oil, gas, and associated hydrocarbons from the Codell and Niobrara Formations:
