BEFORE THE OIL AND GAS CONSERVATION COMMISSION OF THE STATE OF COLORADO

IN THE MATTER OF THE APPLICATION OF MALLARD EXPLORATION, LLC FOR AN ORDER TO POOL ALL INTERESTS IN AN APPROXIMATE 1,280-ACRE DRILLING AND SPACING UNIT ESTABLISHED FOR SECTION 19, TOWNSHIP 8 NORTH, RANGE 60 WEST, 6TH P.M. AND SECTION 24, TOWNSHIP 8 NORTH, RANGE 61 WEST, 6TH P.M., FOR THE NIOBRA, FORT HAYS, CODELL AND CARLILE FORMATIONS, UNNAMED FIELD, WELD COUNTY, COLORADO

CAUSE NO. 535

DOCKET NO. 200400

TYPE: POOLING

APPLICATION

COMES NOW Mallard Exploration, LLC, LLC (Operator No. 10670) (“Mallard” or “Applicant”), by its attorneys, Jost Energy Law, P.C., and makes this application to the Oil and Gas Conservation Commission of the State of Colorado (“Commission”) for an order to pool all interests within an approximate 1,280-acre drilling and spacing unit, as defined below, for the drilling of the Shoveler Hunt Fed #19-24-16HN Well (API No. 05-123-47029) (“Well”), for the development and operation of the Niobrara, Fort Hays, Codell and Carlile Formations on the following described lands:

Township 8 North, Range 60 West, 6th P.M.
Section 19: All

Township 8 North, Range 61 West, 6th P.M.
Section 24: All

1,280-acres, more or less, Weld County, Colorado

Nearby Public Crossroads: WCR 95 & Hwy 14
A reference map is included herewith.

Hereinafter “Application Lands”

In support thereof, Applicant states and alleges as follows:

1. Applicant is a limited liability company duly authorized to conduct business in the State of Colorado and is a registered operator in good standing with the Commission.

2. Applicant is an Owner as defined by the Colorado Oil and Gas Conservation Act and Commission Rules and owns leasehold interests or holds the right to operate on the Application Lands.
3. On February 22, 2011, the Commission entered Order No. 535-3 which, among other things, established 160 approximate 640-acre drilling and spacing units for lands in Townships 8, 9, and 10, North, Ranges 58 through 61 West, 6th P.M., for the production of oil, gas, and associated hydrocarbons from the Niobrara Formation. The 640-acre unit established for Section 19 of the Application Lands by Order No. 535-3 was later vacated by Order No. 535-957.

4. On September 16, 2013, the Commission entered Order No. 535-419, which vacated two approximate 640-acre drilling and spacing units in Sections 13 and 24, Township 8 North, Range 61 West, 6th P.M., and established an approximate 1,280-acre drilling and spacing unit for Sections 13 and 24, Township 8 North, Range 61 West, 6th P.M., and approved up to two horizontal wells within the unit, for the production of oil, gas, and associated hydrocarbons from the Codell-Niobrara Formation, with the treated interval of the wellbores to be located no closer than 600 feet from the unit boundaries, and no closer than 150 feet from the treated interval of any other wellbore, without exception being granted by the Director. Order No. 535-419 was later vacated by Order No. 535-957.

5. On March 20, 2017, the Commission entered Order No. 535-775, which maintained an approximate 640-acre drilling and spacing unit in Section 23, Township 8 North, Range 61 West, 6th P.M., as to the Kummer PC LE23-64HN Well and the Kummer PC LE23-65-1HN Well, and established an approximate 640-acre drilling and spacing unit for the S½ of Sections 23 and 24, Township 8 North, Range 61 West, 6th P.M., and approved up to one horizontal well within the unit, for the production of oil, gas, and associated hydrocarbons from the Niobrara Formation, with the productive interval to be located no closer than 600 feet from the northern boundary of the unit, 200 feet from the eastern and western boundaries of the unit, and 300 feet from the southern boundary of the unit, and no closer than 600 feet from the productive interval of an existing horizontal well producing from the Niobrara Formation. Order No. 535-775 further ordered the applicant to file an application to vacate Order No. 535-419. Order No. 535-775 was later vacated by Order No. 535-820.

6. On June 12, 2017, the Commission entered Order No. 535-820, which vacated Order No. 535-775, rather than vacating Order No. 535-419, thereby leaving an established 1,280-acre drilling and spacing unit covering Sections 13 and 24, Township 8 North, Range 61 West, 6th P.M., for the Niobrara Formation pursuant to Order No. 535-419.

7. On March 19, 2018, the Commission entered Order No. 535-957 which, among other things, vacated Order 535-419 in its entirety, vacated an approximate 640-acre drilling and spacing unit established by Order No. 535-3 for Section 19, Township 8 North, Range 60 West, 6th P.M. for the production of oil, gas, and associated hydrocarbons from the Niobrara Formation, established approximate 1,280-acre drilling and spacing unit for the Application Lands and approved a total of up to 16 horizontal wells within the unit for the production of oil, gas, and associated hydrocarbons from the
Niobrara Formation, provided that the productive interval of the wellbores will be located no closer than 600 feet from the unit boundaries, and no closer than 165 feet from the productive interval of any other wellbore located in the unit, unless the Director grants an exception, and provided that the proposed wells shall be located on no more than three multi-well pads on the surface of the drilling unit, or on adjacent lands with consent of the landowner, unless an exception is granted by the Director.

8. On January 29, 2020, the Commission entered Order No. 535-1281 which, among other things, approved reduced productive interval setbacks of not less than 300’ from the boundaries of the approximate 1,280-acre drilling and spacing unit established for the Application Lands for development and operation of the Niobrara Formation.

9. On December 20, 2019, Mallard filed with the Commission a verified application pursuant to §34-60-116, C.R.S. in Docket No. 191200744 for an order to amend Order No. 535-957 to add the Fort Hays, Codell and Carlile Formations in the approximate 1,280-acre drilling and spacing unit established for the Application Lands for the efficient and economic production from the Niobrara, Fort Hays, Codell and Carlile Formations. Docket No. 191200744 is scheduled to be heard before the Commission on March 25, 2020.

10. Applicant, pursuant to Commission Rule 530 and/or the provisions of § 34-60-116 (6) and (7), C.R.S. hereby requests an order to pool all interests in the Application Lands for the development and operation of the Well in the Niobrara, Fort Hays, Codell and Carlile Formations, and to subject any non-consenting interests, including parties that fail to fulfill their election through timely payment of joint interest billings, to the cost recovery provisions of §34-60-116(7), C.R.S, for the drilling of the Well.

11. Applicant requests that the Commission’s pooling order be made effective as of the earlier of the date of this Application, or the date that the costs specified in § 34-60-116(7)(b), C.R.S. are first incurred for the drilling of the Well to the Niobrara, Fort Hays, Codell and Carlile Formations on the Application Lands.

12. Applicant certifies that copies of this Application and Notice of Hearing will be served on all persons owning an interest in the mineral estate of the tracts to be pooled as required by Rule 507, and that at least ninety (90) days prior to the hearing on this matter, each such interest owner not already leased or voluntarily pooled will be offered the opportunity to lease, or to participate in the drilling of the Well, and will be provided with the information required by Rule 530 as applicable.

13. Applicant certifies that, based on its reasonable diligence, as of the date of filing Applicant owns approximately 81% of the leasehold interests in the drilling and spacing unit comprising the Application Lands to be pooled by the Application, and therefore the Application complies with the requirements of §34-60-116(6)(b)(I), C.R.S.

14. Applicant further certifies that all unleased mineral interest owners of record have been tendered, no less than ninety (90) days before the hearing, a reasonable lease
offer, made in good faith, to lease upon terms no less favorable than those currently prevailing in the area at the time application for the order is made and that such the unleased mineral owners have been furnished in writing the owners’ share of the estimated drilling and completion cost of the Well, the location and objective depth of the Well, and the estimated spud date for the Well or range of time within which spudding is to occur. Further, Applicant certifies that the lease offers included a copy of the Commission’s pooling brochure. Therefore, the Application complies with the requirements of § 34-60-116(7)(d)(I), C.R.S.

15. Applicant further certifies that election letters and offers to participate in the Well were sent to the working interest owners in accordance with the requirements of Rule 530 no later than ninety (90) days prior to hearing on the Application. In addition, the election letters were sent with an Authority for Expenditure and Election Form in accordance with Rule 530. Accordingly, the requirement to make an offer to participate has been met.

16. Upon the expiration of the 60-day election period for all elections to participate and all offers to lease, Applicant will submit sworn testimony under Rule 511 with a request to approve the Application without the necessity of a hearing. This sworn testimony will include representative copies of the offers to lease and to participate evidencing compliance with § 34-60-116, C.R.S. and COGCC Rule 530, in addition to a well plat for the Well, a list of parties that may be subject to the statutory cost recovery penalties of § 34-60-116, C.R.S., and the Authority for Expenditure (AFE) for the Well.

17. In order to prevent waste and to protect correlative rights, all interests in the Application Lands should be pooled for the orderly development and operation of the Well in the Niobrara, Fort Hays, Codell and Carlile Formations, including any non-consenting interests therein.

18. The granting of this Application is in accord with the Oil and Gas Conservation Act, found at §§ 34-60-101 et seq., C.R.S., and the Commission Rules.

WHEREFORE, Applicant requests that this matter be set for hearing in July 2020, that notice be given as required by law, and that upon such hearing, the Commission enter its order to:

A. Pool all interests in the approximate 1,280-acre drilling and spacing unit established for the Application Lands for the drilling of the Well for the development and operation of the Niobrara, Fort Hays, Codell and Carlile Formations.

B. Provide that the Commission’s pooling order is made effective as of the earlier of the date of this Application, or the date that any of the costs specified in § 34-60-116(7)(b), C.R.S. are first incurred for the drilling of the Well in the Application Lands to the Niobrara, Fort Hays, Codell and Carlile Formations.

C. Provide that the interests of any owners with whom the Applicant has been unable to secure a lease or other agreement to participate in the drilling of the Well, or who
fail to fulfill their election through timely payment of proportionate expenses, are pooled by operation of statute, pursuant to § 34-60-116(6) and (7), C.R.S. and made subject to the cost recovery provisions thereof with respect to the Well drilled to develop the Niobrara, Fort Hays, Codell and Carlile Formations in the drilling and spacing unit comprising the Application Lands.

D. For such other findings and orders as the Commission may deem proper or advisable in this matter.

Respectfully submitted:
