APPLICATION

On or about August 29, 2017, amended September 21, 2017, Noble Energy, Inc. (Operator No. 100322) ("Noble" or "Applicant"), filed a verified amended application pursuant to §34-60-116, C.R.S. for an order:

1) Establishing an approximate 2,560-acre drilling and spacing unit for Sections 7, 8, 17 and 18, Township 9 North, Range 58 West, 6th P.M., and allowing up to 30 new horizontal wells in the unit (at the time of this filing, the horizontal wells are intended to be oriented in a north to south/south to north orientation) for the production of oil, gas, and associated hydrocarbons from the Niobrara, Fort Hays, Codell, and Carlile Formations.

2) Providing that the treated interval of each proposed horizontal well shall be no closer than 200 feet on the northern and southern boundaries of the proposed unit and 300 feet on the eastern and western boundaries of the proposed unit (regardless of lease lines within the unit), unless an exception is granted by the Director, and authorizing up to five new well pads within the unit, or adjacent thereto, unless an exception is granted by the Director, and all horizontal wells shall be no closer than 150 feet from the treated interval of another well producing from the same supply within the unit, unless a waiver or consent is obtained from the operator of such well.

3) Providing that the four horizontal wells currently producing from the Niobrara Formation in the Application Lands, the Timbro Federal LD07-78HN (API No. 05-123-37002), the Timbro Federal LD08-62HN (API No. 05-123-33067), the Timbro Federal LD17-76HN (API No. 05-123-33087) and the Timbro Federal LD18-74HN (API No. 05-123-36263) be excluded from the proposed 2,560-acre drilling and spacing unit proposed in this Application and remain under their existing 640-acre drilling and spacing units as to the Niobrara Formation for purposes of payment of proceeds.

4) Finding that the approximate 2,560-acre drilling and spacing unit for the development of oil, gas, and associated hydrocarbons from the Codell and Niobrara Formations underlying the Application Lands will prevent waste, protect correlative rights, and maximize the efficient and economic production of the Codell and Niobrara Formations in Sections 7, 8, 17 and 18, Township 9 North, Range 58 West, 6th P.M.

5) For such other findings and orders as the Commission may deem proper or advisable in this matter.

APPLICABLE ORDERS AND RULES

(available online at: <http://cogcc.state.co.us>, under "Regulation," then select "Orders" or "Rules")

- On February 22, 2011, the Commission entered Order No. 535-3 which established, among other things, 640-acre drilling and spacing units for the Application Lands and allowed one (1) horizontal well to be drilled for the production of oil, gas and associated hydrocarbons from the Niobrara Formation. Order No. 535-3 also established 600' setbacks from the boundaries of the drilling and spacing unit without an exception being granted by the Director of the Commission. Order 535-3 applies each section of the Application Lands.
- On June 17, 2014, the Commission entered Order No. 535-495 which, among other things, established 300' setbacks as to the western boundary section lines of Section 7 of the Application Lands.

NOTICE IS HEREBY GIVEN, pursuant to §§ 34-60-101 to -130, C.R.S., and the Commission's Rules of Practice and Procedure, 2 CCR 404-1, that the Commission has scheduled this matter for hearing on:
