APPLICATION

On December 15, 2017, BP America Production Company (Operator No. 10000) ("BP" or "Applicant") filed a verified application pursuant to §34-60-118, C.R.S., for an order to:

- 1) Approve up to three additional horizontal wells in the Tiffany Unit, for the production of oil, gas and associated hydrocarbons from the Fruitland Coal Formation;
- 2) Require the productive interval of each wellbore to be located no closer than 150 feet from the productive interval of any other wellbore producing from the Fruitland Coal Formation, and no closer than 660 feet from the boundaries of the Tiffany Unit, with no internal section line setbacks;
- 3) Applicant states that the proposed wells shall be located on up to one new well pad in the unit, without exception by the Director.
- 4) Pursuant to C.R.S. § 34-60-118(6), Applicant submitted that the relief requested in the Application affects only the rights and interest of the owners and that Applicant shall not change the percentage for the allocation of oil and gas nor the percentage for the allocation of costs as established by Order No. 112-122 as amended by Order Nos. 112-249, 112-261, and 112-269.

**APPLICABLE ORDERS AND RULES**

(available online at: <http://cogcc.state.co.us>, under "Regulation," then select "Orders" or "Rules")

- On June 17, 1988, Order No. 112-60 established approximate 320-acre drilling and spacing units, for the production of gas and associated hydrocarbons from the Fruitland coal seams, underlying certain lands, including the Application Lands, in the Ignacio-Blanco Field with the units to consist of a governmental half section and the permitted well to be located no closer than 990 feet from the boundaries of the quarter section.
- On January 18, 1996, Order No. 112-122 established the Tiffany Unit and approved a certain Unit Agreement and Unit Operating Agreement for the Ignacio-Blanco Field, providing for unit operations and development of the reservoir consisting of the Fruitland Coal Formation underlying certain lands in La Plata and Archuleta Counties, Colorado.
- On March 2, 2015, Order No. 112-249 amended the Tiffany Unit to provide for primary recovery operations and allowed up to an additional four wells in the Tiffany Unit with the productive interval of each wellbore to be no closer than 150 feet from the productive interval of any other wellbore producing from the Fruitland Coal Formation, and no closer than 660 feet from the boundaries of the Tiffany Unit with no internal section line setbacks, for the production of oil, gas and associated hydrocarbons from the Fruitland Coal Formation.
- On January 26, 2016, Order No. 112-261 allowed up to an additional 18 wells in the Tiffany Unit, with the productive interval of each wellbore to be located no closer than 150 feet from the productive interval of any other wellbore producing from the Fruitland Coal Formation and no closer than 660 feet from the boundaries of the Tiffany Unit with no internal section line setbacks, for the production of oil, gas and associated hydrocarbons from the Fruitland Coal Formation.
- On March 20, 2017, Order No. 112-269 allowed up to an additional three horizontal wells in the Tiffany Unit, with the productive interval of each wellbore to be located no closer than 150 feet from the productive interval of any other wellbore producing from the Fruitland Coal Formation and no closer than 660 feet from the boundaries of the Tiffany Unit with no internal section line setbacks, for the production of oil, gas and associated hydrocarbons from the Fruitland Coal Formation.

NOTICE IS HEREBY GIVEN, pursuant to §§ 34-60-101 to -130, C.R.S. and the Commission's Rules of Practice and Procedure, 2 CCR 404-1, that the Commission has scheduled this matter for hearing on:
