Section 25: All

AMENDED APPLICATION

On July 19, 2018, amended on August 16, 2018, Ursa Operating Company, LLC (Operator No. 10447) ("Ursa" or "Applicant"), filed a verified amended application pursuant to §34-60-116, C.R.S. for an order to:

1) Establish an approximate 640-acre drilling and spacing unit for the Application Lands, and approve the equivalent of one (1) well per 10 acres well density, for the production of oil, gas and associated hydrocarbons from the Williams Fork and Iles Formations (including the Segó Formation); and

2) Applicant states that for any permitted well to be drilled under this Amended Application, the bottomhole location should be located anywhere upon the Application Lands but no closer than 100 feet from the unit boundaries, without exception being granted by the Director. Applicant further states that in cases where the lands abut or corner lands in respect of which the Commission has not at the time of drilling permit application granted the right to drill 10-acre density Williams Fork Formation and Iles Formation wells, the permitted well should be located downhole no closer than 200 feet from the unit boundaries,, unless an exception is granted by the Director; and

3) Applicant further states that in accordance with standard surface location restrictions applied to 10-acre well density units in the area, Applicant's well pads will be limited to no more than one per 40 acres.
