APPLICATION

On August 30, 2018, Edge Energy II, LLC (Operator No. 10671) ("Edge" or "Applicant") filed a verified application pursuant to §34-60-116, C.R.S., for an order to:

- 1) Establish an approximate 1,280-acre drilling and spacing unit for the Application Lands, and approve a total of up to 24 horizontal wells within the unit for the production of oil, gas, and associated hydrocarbons from the Niobrara and Codell Formations, with the productive interval of the permitted horizontal wells within the unit located no closer than 150 feet from the productive interval of any other horizontal wellbore within the same common source of supply, and no closer than 460 feet from the unit boundaries, without exception being granted by the Director
- 2) Require that the wells be drilled from no more than four surface locations within the unit or on adjacent lands.

APPLICABLE ORDERS AND RULES

(available online at: <http://cogcc.state.co.us>, under "Regulation," then select "Orders" or "Rules")

- On April 27, 1988, the Commission adopted Rule 318A, the Greater Wattenberg Area Special Well Location, Spacing and Unit Designation Rule, which was amended on August 8, 2011 to, among other things, address the drilling of horizontal wells and requires that a horizontal wellbore spacing unit must include any governmental quarter-quarter section that are located less than 460 feet from the completed interval of the wellbore lateral. Rule 318A supersedes all prior Commission drilling and spacing orders affecting well location and density requirements of the Greater Wattenberg Area. The Rule does not, however, prohibit the establishment of drilling and spacing units within the Greater Wattenberg Area.
