Aleta,

COGCC agrees with the changes to the Form 2A.

Dave

**Subject:** Changes to the Schlumberger Carbon Services RMCCS State No. 1 Form 2a

Dave, As we discussed we would like to make the following changes to the Schlumberger Carbon Services RMCCS State No. 1 Form 2a.

No. 13 Plant Community, Are noxious weeds present – please change from yes to no. Weeds present at the inactive site include Yellow Sweet Clover, Knot Weed, Russian Thistle and Cochia which are annual weeds NOT noxious.

No. 13 Plant Community, List individual species - please change from, "Drill site is an abandoned,..." to "Drill site is an inactive,..."

No. 14 Water Resources, Distance to nearest surface water, water well – change from 8876' to ~8500'. And change depth to ground water – from 80' to 1000'.

No. 15 Comments – please change, "The well site is within a mined-out pit that has not been reclaimed and consists of areas of barren dirt and noxious weeds." to..." The well site is within a mined-out pit that has not been reclaimed and consists of areas of barren dirt and annual weeds"

Krista will send you the updated access road map tomorrow. Also, I would appreciate it if you could email me confirmation that these changes are acceptable to COGCC.

Thanks!  
Aleta
