RE: Noble Energy Productions, Inc., Betz PC G09-22D Well Site, Upland Area
Corps File No. NWO-2011-1950-DEN

Dear Ms. Savage:

Reference is made to the above-mentioned project located at 40.321019; -104.661109, Weld County, Colorado. Mr. Terry McKee of my office accepts your wetland delineation and mapping associated with this project.

This project has been reviewed in accordance with Section 404 of the Clean Water Act under which the U.S. Army Corps of Engineers regulates the discharge of dredged and fill material, and any excavation activity associated with a dredge and fill project in waters of the United States.

Based on the information provided, a Department of the Army (DA) Permit will not be required for work at this site. Although a DA Permit will not be required for the project, this does not eliminate the requirement that other applicable federal, state, and local permits be obtained as needed.

If there are any questions call Mr. Terry McKee of my office at (303) 979-4120 and reference Corps File No. NWO-2011-1950-DEN.

Sincerely,

A handwritten signature in black ink, which appears to read "J. Scott Franklin", is written over the typed name.

for Timothy T. Carey
Chief, Denver Regulatory Office
