RE: Facility #280718

Puckett 273-25 Pit

SENE 25 – T6S – R97W

Garfield County, CO

Alex – As per our telephone conversation, attached are the following specific documents related to the subject facility:

- Form 15 - Earthen Pit Report/Permit: approved 10/18/05 and assigned Facility #280718
- Form 19 - Spill/Release Report: spill #2607818; submitted 9/18/08; closed 7/20/10
- Form 27 - Site Investigation and Remediation Workplan: submitted 1/20/09; Remediation #5124 (document #2607819); closed as per letter dated 8/20/10 (document #2608758)
- COGIS – Pit Information for Facility #280718

PDC discontinued using the subject pit in 2008. Representative soil samples results indicated TPH, EC, and SAR concentrations above the applicable Table 910-1 standards. As a result, a Form 19 and a subsequent Form 27 were submitted. Both the Form 19 and Form 27 were closed in 2010. However, the status of this pit is currently listed as **ACTIVE** within COGIS.

Given that remediation of this former pit was satisfactory as reflected in the COGCC closure letter dated 8/20/2010, PDC respectfully requests that the status of **Facility #280718** be changed to **CLOSED**.

Your assistance in this matter is greatly appreciated. Please call if there are any questions.
