**Subject:** RE: State Reportable Release

Good Morning,

We had a State Reportable Release at the location referenced below. While performing plugging and abandonment activities suspect shallow groundwater was encountered. A groundwater sample was collected on April 16, 2015. Results received on April 17, 2015 indicate that groundwater impacts are present. More information will be provided in a forthcoming COGCC Form 19 Release Report. Please do not hesitate to contact me with any questions. Thank you,
