2590' is the depth of proposed well bore at which it intercepts the existing well bore shown farthest to the north & in the horizontal plane.
 -2264' is the depth of the existing directional well bore that intercepts the proposed well bore within the horizontal plane.
 326 ' is the vertical distance between the planned and existing well bores.

1893' is the depth of proposed well bore at which it intercepts the existing well bore shown farthest to the south in the horizontal plane.
 - 879' is the depth of the existing directional well bore that intercepts the proposed well bore within the horizontal plane.
 1014' is the vertical distance between the planned and existing well bores.
