1	<p>ConocoPhillips Company and Burlington Resources Oil Gas LP submit the following comments to this proposed Application for Permit to Drill:</p> <p>1. ConocoPhillips and Burlington Resources have substantial concerns about Bison Oil Gas, LLC's spacing and increased density application in Docket No. 170300155 due to the request for an allowance of up to 16 wells (including this Application for Permit to Drill) for Section 13, Township 3 South, Range 66 West and Section 18, Township 3 South, Range 65 West, 6th P.M. This area of the basin does not support the need for 16 wells and such a request should be analyzed thoroughly to determine whether Waste, as defined by the Oil and Gas Conservation Act, will occur.</p>	02/10/2017
