**General Comments**

<b><u>User Group</u></b>	<b><u>Comment</u></b>	<b><u>Comment Date</u></b>
Environmental Data	The operator has field verivied that the well is outside of the 318A.f search area. The operator provided the actual coordinates for the water well and they were plotted on the COGCC COGIS maps to verify that the well was outside ofthe search area. Please see the correspondence in the attachments for more information.  A review of information available on COGIS maps indicates that there is no water feature that meets the 100 series definition of a water source within any quarter section in 1/2 mile of the oil/gas well(s).	05/09/2017
Environmental Data	There is one water well within the 318A.F search area that the operator is going field verify the location of. An email was sent to the operator on 5/2/2017.  The Sundry will be placed on hold until the location of the water well in question can be verified by hte operator.	05/05/2017
