<p>Comment: Stormwater erosion identified during previous inspection was addressed through progressing revegetation and stormwater controls. However, stormwater controls need maintenance and in the eastern project area, and further stabilization where concentrated stormwater from the well pad flows into an adjacent drainage. See attached photos.</p> <p>Corrective Action: Maintain stormwater controls and apply further stabilization measures in areas of active erosion (specifically in the eastern project area).</p>						Date: 05/04/2018
<p><b>Pits:</b> <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT</p>
