VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____ F _____

Comment

This location is not in compliance with Rule 1003 standards. Operator has failed to keep disturbed areas free of all undesirable plant species designated to be noxious weeds as practicable. A List B Colorado noxious thistle (Canada thistle) was observed throughout the location. Mowing operations would not be considered long term weed management and would likely spread the seeds since the observed thistles have viable seedheads.

Corrective Action

Properly remove and control noxious weeds throughout the location. Ongoing weed management and monitoring is required, and needs to occur in accordance to COGCC rules and regulations.

COGCC Comments

Comment	User	Date
Even though this report states CONTINENTAL RESOURCES INC, this is not correct. COGCC scout card has been updated to SCHNEIDER ENERGY SERVICES as the active operator and a Form 10 transfer has been approved.	binschusc	08/28/2018
