Weld County, Colorado**

Ladies and Gentlemen:

Noble Energy, Inc. (Noble) is applying to the Colorado Oil and Gas Conservation Commission (COGCC) to drill wells on the above referenced pad. COGCC Rule 317.s. stipulates that no portion of a proposed wellbore's treated interval shall be located within 150 feet from an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval without the signed written consent from the operator of the encroached upon wellbore. As currently planned, the following wells' treated intervals are within 150 feet of the proposed horizontals' treated interval:

**McKenney 6-42 (API: 05-123-15213) 81' from proposed Johnson D06-761
McKenney 5 (API: 05-123-25987) 122' from proposed Johnson D06-756**

Pursuant to COGCC Rule 317.s, the signed written consent shall be attached to the Application for Permit to Drill Form 2 for the proposed wellbore. The distance between wellbores measurement shall be based upon the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the COGCC well records. The distance shall be measured from the perforation or mechanical isolation device.

Per COGCC Rule 317.s, Noble is requesting operator's consent of the encroached upon setback for the existing wells referenced above. Should you find this acceptable, please so indicate by executing a copy of the consent and returning to my attention in the provided self-addressed stamped envelope.

RE: COGCC Rule 317.s. Statewide Fracture Stimulation Setback
C30-07 Multi: SWNE Section 30, Township 4 North, Range 64 West
Weld County, Colorado

I, Caleb A. Ring, acting as self, officer, agent or employee of PDC Energy Inc., operator of the existing McKenney 5 (API: 05-123-25987), McKenney 6-42 (API: 05-123-15213) wells, with full power to execute the following, do hereby give consent to Noble Energy, Inc. to stimulate the Johnson D06-756 and Johnson D06-761 within the COGCC Rule 317.s. Statewide Fracture Stimulation Setback.
