Comment: The access road was constructed during operations and not reclaimed. There is no approved variance for the road to remain. The main road appears to be pre-existing however, it was widened during operations. There are erosion issues along the main road. There are noxious weeds along the road. A pit remains at the location approved by a variance request. Vegetation is well established at the location. See Attached Photos

Corrective Action:	Perform noxious weed control before weeds produce seed. Comply with Rule 1004.e. Recontour and reclaim the access road. Repair and stabilize main road. Comply with 1004 rules.	Date	10/01/2019
