<p><b>COGCC Inspection Report Summary</b>                      On Wednesday, July 24, 2019 at approximately 14:40, I, Inspector Brittani Santistevan, conducted an on-site inspection at LEFFLER 1i-HZ PAD (PDC Energy), at location #: 425284 in WELD COUNTY Colorado.                      While there, I observed a shut in location.                      During this inspection the following possible compliance issues were observed:                      1. All labeling (BBLs, NFPA Placard, Operator info) is placed on wrong side of tanks and not visible to view of outside of berm. <b>INSTALL SIGN TO COMPLY WITH RULE 210.D.</b> (Corrective Action Date: August 24, 2019) See attached photo #2,3,4.                      2. Unused equipment/storage of supplies/trash in both south and north heater treator houses. <b>COMPLY WITH RULE 603.F.</b> (Corrective Action Date: August 24, 2019) See attached photo #7,9.</p> <p>A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p> <p>Continuing Education Inspection.</p>	santistb	07/24/2019
