**General Comment:**

Spill Inspection (See Form 19I document number 402146869.)

Spill occurred on 8/16/2019 during closed loop drilling operations of water based mud and a Form 19I was submitted by operator in a timely manner. State COGCC, LGD and surface owners were contacted and spill was mostly contained in an open top tank with ditched and earth berms used to also contain spill at time of inspection (see attached photos). COGCC EPS will determine if confirmation samples are required and a Form 19S will be required 10 days from spill (8/26/2019) to document status.
