General Comment:

This is an orphaned well inspection. Inspection completed to document well status prior to start of plug and abandonment task.

Inspection may also identify possible task required for final closure/release of location from the Orphaned Well Program.

See link at end of report for path to downloadable pictures.

Comment	User	Date
Well is scheduled for P&A. Removal of concrete base, power pole, and cleanup of production related debris is outside of scope of work and will require additional task to complete decommissioning/abandonment work of location.	stjohnw	01/03/2020
