General Comment:

This is a reclamation inspection of the FEE 6 #428 well site which was plugged and abandoned on 4/24/2014.
The location is not in compliance with the Final Reclamation requirements.
Final Reclamation was not completed within 12 months of abandonment.
See attached photos and additional details within this report.

Operator is directed to perform corrective actions outlined on this inspection report immediately. This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.(1). Perform corrective actions immediately to avoid further enforcement and potential penalties.

Comment: The subsequent form 6 does not appear to have been submitted. The location is not in compliance with the Final Reclamation requirements. There is cement blocks and debris that remain. This was also noted in the 2010 inspection. The access road has gravel in areas and has not established vegetation. The area where the well was located is bare of vegetation. There is also disturbance west of the location which appears to be associated. See attached photos.
