**General Comment:**

COGCC Inspection Report Summary

On Friday 1/22/2021 at approximately 1400, I, Inspector Scott Ramsey, conducted a routine inspection at Grizzly MDP 11, at Location # 418465 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year.

During this inspection the following possible compliance issues were observed:

- No evidence of tracking control BMP's
- Location shows signs of lack of stabilization BMP's in some areas (rutting is present) BMP's require maintenance.
- Battery signage is in front of separators not at the tank battery.

Refer to photograph of observed compliance issue.

Battery signage was in front of separators, pumper showed up and moved battery signage to tank battery so no C/A is required.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
