**General Comment:**

On 1/19/2022 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Control weeds by 6/1/2022.

-Revegetation needs to be installed within the southern project area by 5/1/2022.

-Stormwater (BMPs) and erosion controls (ie: mulch) need to be installed in the southern project area by 5/1/2022. Stormwater and erosion controls need to be installed and maintained until area is stabilized with desirable perennial vegetation.

See below, and attached photos for additional detail.

This is a shared location with Logos Operating. It is the responsibility of both operators to ensure compliance within the project area.
