**General Comment:**

On 05/25/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at Chevron USA Inc's Wilson Creek Morrison Unit-62N94W /2NWNE Location #397053 in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious Weeds: bull thistle, houndstongue
- Final Reclamation not performed per 1004 Rules

Refer to the "Location," "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

It was observed in this inspection that Final Reclamation has not been performed per COGCC 1004 Rules. The Location appears compacted from vehicle traffic, and a large proportion of bare ground is present compared to adjacent reference areas. It appears the Location may have been seeded with orchard grass, an introduced perennial grass. A concrete slab is present at the wellhead marker. Given the vehicle traffic and compacted soils, this Location is unlikely to progress towards total perennial, non-invasive uniform plant cover of at least eighty percent of reference levels. The date of discovery is being given as a corrective action date.

Refer to the "Location" section of this report for corrective action regarding noxious weeds.

Corrective Action:

Submit a Federal Abandonment Notice (FAN) in a FIRR indicating surface reclamation has been passed per Bureau of Land Management standards, or complete final reclamation activities pursuant to COGCC 1004 Rules including, but not limited to, gravel removal, compaction alleviation (cross ripping to a minimum depth of 18 inches), recontouring/regrading, replacement of topsoil, and revegetation activities on the Location and access road. Use a seed mixture provided by the surface owner, or a mixture prescribed by the local soil conservation district.
