**General Comment:**

On 8/25/2022, Reclamation Specialist Trujillo inspected Utah Gas Corp's Young Cattle Co 24-12

The following compliance issues were observed during this inspection:  
-Stormwater

Refer to the "Location" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

**Location**

<b>Lease Road:</b>			
Type	Access		
comment:	It was observed in this inspection that recent flooding appears to have occurred, resulting in the degradation of the access road, and preventing Reclamation specialist from safely accessing the Location. Degradation most apparent around the culverts near the start of the access road; unable to find the upstream section of the culverts.		
Corrective Action:	Comply with 1002.f; maintain access road; implement and maintain BMPs to stabilize access road, manage runoff and minimize further degradation.	Date:	09/29/2022
