LocationOverall Good: ☐**Signs/Marker:**

Type	WELLHEAD		
Comment:	Previous inspections observed sign posted on meter housing; sign does not contain required information. Inspection required Operator to comply with Rule 605.d. CA from previous inspection not completed. CA date remains the same.		
Corrective Action:	Install sign to comply with Rule 605.d	Date:	06/18/2021
Type	OTHER		
Comment:	Previous inspections observed sign at the blowdown tank with incorrect Operator information. Inspection required Operator to comply with Rule 605.h. CA from previous inspection not completed. CA date remains the same.		
Corrective Action:	Install sign to comply with Rule 605.h.	Date:	06/18/2021

Emergency Contact Number:Comment: Corrective Action: Date: **Good Housekeeping:**

Type	UNUSED EQUIPMENT		
Comment:	Previous inspection observed an unused drag on the Location. Unused equipment has not been removed. CA from previous inspection not completed. CA date remains the same		
Corrective Action:	Comply with Rule 606	Date:	05/05/2022
Type	WEEDS		
Comment:	Previous inspection observed weeds/debris at blowdown tank; tank full of rain water. Fluids appear to have been removed; weeds and debris remain at blowdown tank. CA from previous inspection not completed. CA date remains the same.		
Corrective Action:	Comply with Rule 606	Date:	05/05/2022
Type	WEEDS		
Comment:	It was observed in this inspection that Jointed Goatgrass (Aegilops cylindrica) has established throughout the majority of the eastern end of the site, and along the access road, creating an invasive monoculture outcompeting desirable plant species; plants have matured and seeds have already shattered/spread. Ongoing weed management, and additional reclamation work will be required.		
Corrective Action:	Comply with Rules 1003.f and 606.c. Collaborate with an expert to determine appropriate strategies in order to manage weeds, and implement ongoing weed management efforts in order to control, contain and prevent the further spread and establishment of Undesirable and Noxious Plant species both on, and from the Location.	Date:	08/25/2022

Inspected FacilitiesFacility ID: 210582 Type: WELL API Number: 045-06338 Status: SI Insp. Status: SI**Idle Well**Purpose: ☒ Shut In ☐ Temporarily Abandoned

Reminder: _____

Comment: Previous inspection observed that well was "shut in" 6/1/2020; no current MIT on record. Inspection required Operator to produce well after performing successful mechanical integrity test per Rule 417 or plug well. To maintain shut-in status, the well must be able to demonstrate ability to produce without mechanical intervention.

Unable to find record of MIT.

CA from previous inspection not completed. CA date remains the same.

Corrective Action: Produce well after performing successful mechanical integrity test per Rule 417 or plug well. To maintain shut-in status, the well must be able to demonstrate ability to produce without mechanical intervention.

Comment It was observed in this inspection that Jointed Goatgrass (*Aegilops cylindrica*) has established throughout the majority of the eastern end of the site, and along the access road, creating an invasive monoculture outcompeting desirable plant species; additional reclamation work required to ensure site progresses towards an 80%, uniform desirable perennial vegetative establishment. See "Good Housekeeping" for corrective action regarding noxious weed management.

Corrective Action Comply with 1003 rules and conduct additional reclamation. Implement best management practices and strategies to ensure site progresses towards COGCC 1003 requirements, including an 80% uniform, desirable perennial revegetation standard. Conduct ongoing monitoring/management efforts until site receives a passing final reclamation inspection. A CA date of 11/15/2022 is being provided to allow operator to implement initial weed management strategies prior to reclamation efforts.

Date 11/15/2022
